1. PRECAUTIONS

1)、On the Road

Using a device while driving is illegal in many countries. Please refrain from using your mobile while driving.

2)、Near Sensitive Electronics or Medical Equipment

Don't use your device near sensitive electronic equipment – particularly medical devices such as pacemakers – as it could cause them to malfunction. It can also interfere with the operation of fire detectors and other automatic-control equipment.

3)、While Flying

Your device can cause interference with aircraft equipment. So it's essential you follow airline regulations. And if airline personnel ask you to switch off your device, or disable its wireless functions, please do as they say.

4)、At a Gas Station

Don't use your device at gas stations. In fact, it's always best to switch off whenever you're near fuels, chemicals or explosives.

5)、Making Repairs

Never take your device apart. Please leave that to the professionals. Unauthorized repairs could break the terms of your warranty. Don't use your device if the antenna is damaged, as it could cause injury.

6)、Around Children

Keep your mobile out of children's reach. It should never be used as a toy as this is hazardous.
7)、Near Explosives

Turn off your device in or near areas where explosive materials are used. Always obey local laws and turn off your device when requested.

8)、Working Temperature

The working temperature for the device is between 0 and 40 degree Celsius. Please don't use the device outside the range. Using the device under too high or too low temperature might cause problems.At very high volume, prolonged listening to a mobile device can damage your hearing.

2. PARTS AND BUTTONS OF THE DEVICE

① Micro-USB Connector	⑥ Front Camera	⑪ Reset Hole
② T-FLASH Card Slot	⑦ Touchscreen	⑫ Rear Camera
③ SIM Card Slot	⑧ Microphone	⑬ Flash
④ Earphone Jack	⑨ Volume Button	⑭ Speaker
⑤ Receiver	⑩ Power Button	

3.TOUCH BUTTONS

The ◀ button moves back one step to the previous menu/page.

The ● button returns immediately to the main screen.

The ■ button displays a menu of recently opened applications.

   This interface adds a "CLEAR ALL" button)
Swipe up on the home screen to open the application list

4. INSERTING/REMOVING CARDS

Installingthe SIM Card or micro SD card.
Insert your fingernail into the slot next to the top card slot, and then buckle the card slot cover outward.

SIM   T-Flash
Card   Card

WARNING:
actory Data Reset setting will delete ALL your data and system configuration as well as any downloaded apps. Please use this function carefully.

19. FCC RF EXPOSURE INFORMATION

In August 1986 the Federal Communications Commission　FCC of the United States with its action in Report and Outer FCC 96-326 adopted an updated safety standard for human exposure to radio frequency　RE　electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards. Use only the supplied or an approved antenna. Unauthorized antennas modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

BODY-WORN OPERATION:

This device was tested for typical body-worn operations with the back/front of the phone kept 0cm from the body. To comply with FCC RF exposure requirements, a minimum separation distance of 0cm must be maintained between the user's body and the back/front of the phone, including the antenna. Third-party belt-clips, holsters and similar accessories containing metallic components shall not be used. Body-worn accessories that cannot maintain 0cm separation distance between the use's body and the back/front of the phone, and have not been tested for typical body-worn operations may not comply with FCC RE exposure limits and should be avoided.

16

For more information about RF exposure, please visit the FCC website at www.fcc.gov

Your wireless handheld portable telephone is a low power radio transmitter and receiver. When it is ON, it receives and also sends out radio frequency RF signals. In August,1996,the Federal Communications Commissions FCC adopted RF exposure guidelines with safety levels for hand-held wireless phones. Those guidelines are consistent with the safety standards previously set by both U.S. and international standards bodies:

<ANSIC95.1> 1992 /<NCRP Report 86> 1986 /

<ICNIRP> 1999

Those standards were based on comprehensive and periodic evaluations of the relevant scientific literature. For example, over 120 scientists, engineers, and physicians from universities, government health agencies, and industry reviewed the available body of research to develop the ANSI Standard C95.1 .Nevertheless, we recommend that your use a hands-free kit with your phone such as an earpiece or headset to avoid potential exposure to RF energy. The design of your phone complies with the FCC guidelines and those standards .

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the phone and may violate FCC regulations.

NORMAL POSITION:
Hold the phone as you would any other telephone with the antenna pointed up and over your shoulder.

RF Exposure Information:
This product is compliance to FCC RF Exposure requirements and refers to FCC website https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm search for FCC ID:2AY6A-T1ELITE

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

Do not use the device with the environment which below minimum -10   or over maximum 40   , the device may not work. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
